***Allowable Subject Matter***

Claims 2-4, 6-13 and 15-26 (renumbered 1-23) are allowed.

The following is an examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fails to suggest fro capturing fields in outputs of a software application for integrated part of many businesses. Specifically, claims 2, 13 and 20 are directed to contain a routine test generating and output upon execution, displaying the output as a bitmap and capturing routine invocable by the test routine to extract data from a predefined region of the bitmap and to perform a test procedure to achieve efficiency while the test scripts are executed in a client system. Therefore, the claimed invention improves the tracking customer orders from the point of order through manufacturing to shipping since many applications are generally mission-critical in the sense that inadequate performance or failure of such applications may adversely impact a business.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
